

## You Matter: COVID-19 Mental Health Impact Survey

The Office of the Commissioner of the Connecticut Department of Mental Health and Addiction Services (CT DMHAS), through the Office of Recovery Community Affairs, is conducting a survey to help us better understand the impact of COVID-19 in our community. Your input is critical to help us understand the needs of the community and prioritize policy and program decisions. The survey is anonymous and available in English, Spanish and Portuguese. We are looking for responses from **Connecticut residents 18 years of age or older**. We recognize that some people may have difficulty accessing the survey, so we're asking service providers and advocates to reach out to individuals and families and complete online for them.

You can also request a paper version of the survey to your provider.

Finally, if you would like to provide your responses to someone over the phone, please call 475-434-1899 or 475-355-5393 Mondays-Fridays 10-12.

Thank you for your time!
